

Longhurst & Havelok Homes Supported Housing Case Study

Longhurst & Havelok Homes (L&H Homes) provides support to vulnerable adults to maintain their tenancies, offering a range of services such as assistance with budgeting, claiming benefits, access to professional, physical and emotional health care and making a positive contribution to the community through employment and voluntary work.

These services do not just help individuals but provide a vital contribution to the wider community. Vulnerable tenants who receive related support are less likely to become homeless, involved in illegal activities or spend time in hospital or in care facilities.

Chris' Story

Chris lives in an L&H Homes property and has been receiving support from the Skegness team for the past 10 months. In this time Nick's self-assurance has improved significantly.

"Previously, I didn't even have the confidence to go outside, but now with the advice and support from Nick my Support Officer, I feel like a new man. I take regular walks o visit the local market and supermarket." Chris said.

"I also have the self-belief to talk to people and have formed some strong friendships with my neighbours. Also with the assistance of L&H Homes I have attended days out, which previously I thought I would have never done."

Chris now contributes articles in the resident magazine and has enrolled in a computer course at Skegness College, which starts in September.
